Breck's Bulbs for Autumn Planting

AEROLITE

Breck's Superior Daffodils

DAFFODILS are the loveliest and most satisfactory of early Spring flowers. They are very easy to grow, perfectly hardy, and as permanent in the garden as anything one can plant. The bulbs multiply rapidly and if given a reasonably good situation, will provide an ever increasing display with abundant bloom for cutting. A modest investment in Daffodils will pay rich dividends for many years to come.

Daffodils will thrive in any reasonably good, well-drained soil, but they will not tolerate a situation where water accumulates and lies during the Winter or Spring months.

LARGE TRUMPET DAFFODILS

Aerolite

A magnificent, large, golden yellow trumpet, with a deep, primrose perianth. A beautifully proportioned bloom; graceful despite its size. 60 cts. for 3, \$1.65 for 10, \$3.95 for 25, \$14.95 per 100

King Alfred

A magnificent Daffodil with a broad perianth and large, frilled trumpet of a rich golden yellow throughout. The most popular and most widely used variety for forcing. Mammoth bulbs.

MEDIUM TRUMPET DAFFODILS

In this section we include the varieties classed as Leedsi, Barri, and Incomparabilis. While the differences between these types are distinct, no good purpose seems to be served by separating them into groups, since they all agree in having relatively short trumpets or cups.

Bernardino (Incomparabilis)

Beautiful, creamy flower with a large, ruffled cup of pale yellow.

35 cts. for 3, \$1.05 for 10, \$2.55 for 25, \$9.70 per 100

Bonfire (Barri)

The broad, ivory perianth is flamed with yellow, paling to cream, while the deep yellow cup is edged burnt-orange.

60 cts. for 3, \$1.65 for 10, \$3.95 for 25, \$14.95 per 100

Brightling (Barri)

A gorgeous variety with a pale yellow perianth and a large, flat, orange-red cup, attractively frilled.

70 cts. for 3, \$2.10 for 10, \$5.05 for 25, \$19.15 per 100

Conspicuous (Barri)

A famous old sort with a large, creamy yellow perianth and a short, reddish orange cup.

35 cts. for 3, \$1.00 for 10, \$2.30 for 25, \$8.80 per 100

Croesus (Incomparabilis)

A light canary-yellow perianth. The cup is of rich orange, and broadly fluted.

35 cts. for 3, \$1.15 for 10, \$2.75 for 25, \$10.55 per 100

Donatello (Incomparabilis)

The pure, deep yellow trumpet is beautifully ruffled and frilled. Lovely light primrose perianth.

40 cts. for 3, \$1.25 for 10, \$3.00 for 25, \$11.45 per 100

Evangeline (Leedsi)

One of the prettiest Narcissi for naturalizing, having pure white flowers with a lemon cup.

35 cts. for 3, \$1.15 for 10, \$2.70 for 25, \$10.35 per 100

Firebrand (Barri)

A recurved ivory-white perianth with a vivid scarlet cup in the center.

40 cts. for 3, \$1.20 for 10, \$2.85 for 25, \$10.75 per 100

Firetail (Barri)

Broad, creamy white perianth of firm texture; flat crown of brilliant crimson-scarlet.

70 cts. for 3, \$2.10 for 10, \$5.10 for 25, \$19.35 per 100

Helios (Incomparabilis)

Deep golden yellow perianth with a light, orange cup.

45 cts. for 3, \$1.30 for 10, \$3.05 for 25, \$11.65 per 100

John Evelyn (Incomparabilis)

A rounded perianth of sparkling white; cup large and deep, tinted rich tangerine.

70 cts. for 3, \$2.10 for 10, \$5.10 for 25, \$19.35 per 100

Lady Diana Manners (Barri)

Pure white, wide, overlapping petals and deep lemon-yellow, flaring cup, edged red-orange.

80 cts. for 3, \$2.40 for 10, \$5.80 for 25, \$22.00 per 100

Lady Moore (Barri)

Creamy white flower with a broad, shallow cup of golden yellow; deeply frilled orange edge.

60 cts. for 3, \$1.65 for 10, \$3.95 for 25, \$14.95 per 100

Lucifer (Incomparabilis)

Enormous perianth with long, recurved segments whorled about a broad, golden yellow cup, edged orange-crimson.

50 cts. for 3, \$1.40 for 10, \$3.30 for 25, \$12.55 per 100

Mrs. Nette O'Melveny (Leedsi)

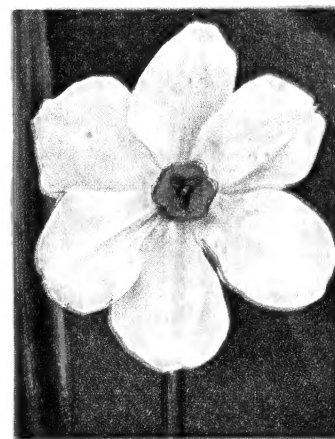

Pure white perianth and cup of clear lemon-yellow, with orange picotee.

35 cts. for 3, \$1.05 for 10, \$2.55 for 25, \$9.70 per 100

Mrs. Percy Neale (Leedsi)

The crinkled edge of trumpet is shaded cream; the rest of the flower is pure white.

75 cts. for 3, \$2.20 for 10, \$5.30 for 25, \$20.20 per 100

POET'S NARCISSUS ORNATUS, See page 3

SIR WATKIN

Mrs. Walter H. Brewster (Barri)

One of the finest varieties. Pure white perianth; lemon-yellow cup, edged with oxblood.

35 cts. for 3, \$1.15 for 10, \$2.75 for 25, \$10.55 per 100

Queen of the North (Leedsi)

Round, overlapping perianth of snowy white with a daintily fluted lemon cup.

35 cts. for 3, \$1.05 for 10, \$2.55 for 25, \$9.70 per 100

Sir Watkin (Incomparabilis)

Bright primrose with a rich golden yellow cup. An old-time favorite for forcing and for outdoor culture.

35 cts. for 3, \$1.05 for 10, \$2.55 for 25, \$9.70 per 100

White Lady (Leedsi)

A fine, naturalizing variety with a large, broad white perianth and a flilled pale canary cup.

35 cts. for 3, \$1.00 for 10, \$2.30 for 25, \$8.80 per 100

Grow Narcissus in Water

"Paperwhite" Narcissus bulbs growing and blooming in pebbles and water are a sight familiar to everyone, but many do not know the glowing yellow "Grand Soleil d'Or" nor the two-colored "Chinese Sacred Lily." Both may be grown in the same fashion and with equal ease, except that they must be set away in a cool place for a longer period to insure plenty of root growth. After several weeks in such storage (cool and dark) and when **well rooted** they may be placed in a sunny window in an airy room and brought quickly into bloom. Try them! They are well worth the effort.

Instead of pebbles use our new **MICA-GRO**. It is clean, sterilized, and easy to handle; it holds moisture and makes frequent watering unnecessary; it is light in weight and may be used over and over again. Bulbs thrive in **MICA-GRO**.

EARLY PAPERWHITE GRANDIFLORA

ENGLISH COTTAGE GARDEN TULIPS

THE Cottage Tulip Group is unique in that it presents the greatest variation in flower form of any of the major classifications. There are blooms of the conventional Tulip form which are impossible to distinguish from Darwins; there are egg-shaped and bowl-shaped Tulips, as well as some that show a rosebud form, and in addition to these there are Lily-flowered with long, pointed, gracefully reflexed petals.

The colors range from white through all the various shades of blush, pink, salmon, and rose and the most brilliant and startling shades of cerise, carmine and crimson as well as yellow. There is not a dull variety in the entire group. They bloom during the latter part of May and grow from about 1½ to 3 feet in height. They may be used with, or in exactly the same way as Darwin Tulips, and with their brilliancy and wide diversity in form will provide unusual effects.

Cottage Tulips should be planted in just the same way as suggested for Darwins.

English Cottage Garden Tulip Mixture

An attractive and interesting Tulip mixture offering not only a brilliant range of color but also great diversity in flower form.

They bloom at the same time as the "Darwins" and add variety and beauty to the late May garden.

Breck's SELECTED DARWIN TULIPS

MANY years ago, when this classification was determined upon, there undoubtedly were certain characteristics which were common to, or exclusive with, Darwin Tulips. Now changes have taken place. Countless crosses have been made. The blood of other groups has been introduced, and there is almost no feature left which is peculiar to this group alone. We can, therefore, no longer explain just why a "Darwin" is a "Darwin."

The color-range is from white through blush, pink, salmon, rose, shades of red, maroon, purple to black, as well as yellow, and the loveliest shades of lavender and lilac. They grow from 2 to 3 feet in height and bloom in late May.

Darwin Tulips may be effectively grouped in front of shrubs and evergreens or planted in beds and perennial borders. Plant the bulbs 5 to 6 inches deep and 4 to 6 inches apart during October or November. Cover with a light mulch of some such material as Salt Marsh Hay after the first hard freeze.

Afterglow—26 in.

Flower petals incurved at the edges; tawny apricot, suffused rose. Vivid in the sunshine. 40 cts. for 3, \$1.25 for 10, \$3.00 for 25, \$11.45 per 100

Farncombe Sanders—30 in.

Flowers large, brilliant scarlet-rose, deepening almost to flame on the inner surface of the petals; white base, mottled with blue at times. A very fine variety. 45 cts. for 3, \$1.30 for 10, \$3.15 for 25, \$11.90 per 100

Giant—32 in.

Gorgeous dark violet-purple blooms of large size, with a tiny white base set within a purple blue star. A good forcer and a most desirable and attractive variety for the garden or border.

40 cts. for 3, \$1.25 for 10, \$3.00 for 25, \$11.45 per 100

Inglescombe Yellow 22 in.
A deep canary yellow flower of true Darwin shape, usually slightly tinged with a hairline of red at the edges of the petals, and if the season is long, apt to assume most attractive reddish or orange tints.
35 cts. for 3, \$1.05 for 10, \$2.45 for 25, \$9.25 per 100

King George V—30 in.
The gigantic salmon-scarlet flowers are vividly shaded with bright rose-red; brilliant orange-scarlet within and intensely blue at the base. Exceptionally handsome and of great substance. The finest in this color class.
45 cts. for 3, \$1.35 for 10, \$3.25 for 25, \$12.35 per 100

King Harold—27 in.
An exquisite satiny sheen overlays its petals of deep glowing red; base purple black. Very dark glowing color and a most beautiful Tulip. A superb variety for forcing or bedding.
40 cts. for 3, \$1.25 for 10, \$3.00 for 25, \$11.45 per 100

La Salle (Ideal)—28 in.
Clear silvery white, brown anthers. An excellent garden variety and exceptionally good for early forcing.
50 cts. for 3, \$1.50 for 10, \$3.60 for 25, \$13.65 per 100

La Tulipe Noire (The Black Tulip)—25 in.
A deep maroon-black Tulip which has a velvety sheen in the sunlight. Yellowish black at the base. Plant with yellow and orange varieties.
45 cts. for 3, \$1.30 for 10, \$3.15 for 25, \$11.90 per 100

Matchless (Roi d'Islande) 25 in.
A dark old-rose flower with an enormous and conspicuous blue base. Particularly good in partial shade. Good forcer.
45 cts. for 3, \$1.30 for 10, \$3.15 for 25, \$11.90 per 100

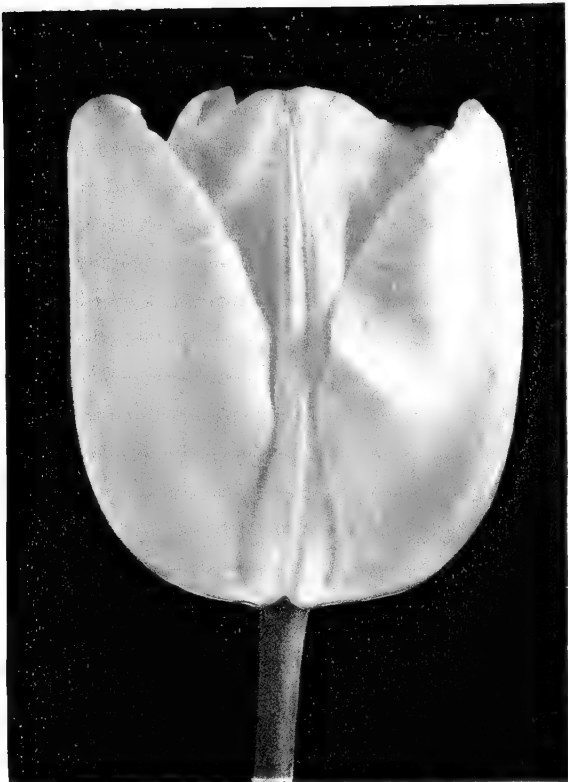

Mme. Krelage—29 in.
Vivid dark old-rose edged lighter; base white, faintly fringed with blue. Excellent for either bedding or forcing.

THE BREEDER TULIPS

It is to this group we must look for the odd colors which do not appear among the Darwin and Cottage Tulips. The colors are generally subdued. We suggest using them in combination with Darwin or Cottage Tulips in order to provide contrast to the more brilliant colorings of these groups. They grow from 2 to 3 feet in height and bloom in late May.

Bronze Queen—28 in.

An exquisitely shaped flower of bronzy buff tinged with rose-purple outside; inside, apricot brown edged with bronzy buff at the edges; yellow base.

40 cts. for 3, \$1.25 for 10, \$3.00 for 25, \$11.45 per 100

Copernicus—27 in.

A medium-sized flower of dark coppery red, shaded with old-rose; chestnut-brown inside, with a glowing yellow base.

35 cts. for 3, \$1.10 for 10, \$2.65 for 25, \$10.10 per 100

Dillenburg—27 in.

Brilliant salmon-orange, shaded rose; inside glistening orange.

50 cts. for 3, \$1.50 for 10, \$3.60 for 25, \$13.65 per 100

Louis XIV—30 in.

A very large, rather frilled, incurved flower of dull blackish purple broadly margined with brownish gold. This is a most stately variety.

60 cts. for 3, \$1.75 for 10, \$4.20 for 25, \$15.85 per 100

TRIUMPH TULIPS

A new early strain resulting from the cross-hybridization of Darwin and Single Early Tulips. Triumph Tulips are large-flowered, strong-stemmed, and grow from 18 to 26 inches high. The flowers resemble Darwins but they bloom at least a week earlier. In the opinion of many they are destined to eventually supplant the Single Early group. All are splendid for February forcing.

Alberio—24 in.

Deep cherry-red with a contrasting yellow edge. An excellent forcing variety.

50 cts. for 3, \$1.50 for 10, \$3.60 for 25, \$13.65 per 100

Algiba—18 in.

Deep purplish mauve shading lighter toward the edge. Fine lavender when forced.

All About Flowering Bulbs

By T. A. WESTON

All that one needs to know about the planting and care of some 80 families of bulbs is set down clearly and entertainingly in the 184 pages which make up this volume. An amazing amount of information is given about Spring flowering, Summer flowering and Tender bulbs, and it may safely be said that it is information at first hand, not compiled. The illustrations, too, are noteworthy, there being eight full page color plates and 68 black and white halftones.

SINGLE EARLY TULIPS

At the time when Early Tulips bloom, there are scarcely any brilliant garden flowers open except Narcissus and Hyacinths and, in spite of all the beauty of Narcissus, they lack contrast in large plantings because of their limited color range. The Single Early Tulips supply the brilliance which is lacking at that season. A second very desirable quality about the Early Tulips is that the bloom is over and the plants matured in time to permit replanting the beds with Summer annuals which will come into bloom early in the season.

Brilliant Star—12 in.

Rich vermilion-scarlet, yellow base. An unusually fine Tulip for early forcing and an excellent bedding variety.

55 cts. for 3, \$1.60 for 10, \$3.75 for 25, \$14.30 per 100

De Wet—15 in.

An enormous bowl-shaped flower of vivid golden yellow, flamed with burning orange. One of the finest Tulips in the world. Sweetly scented.

50 cts. for 3, \$1.40 for 10, \$3.30 for 25, \$12.55 per 100

Diana—17 in.

Handsome, large, pure white blooms on tall, straight stems. Excellent for early forcing and bedding.

45 cts. for 3, \$1.30 for 10, \$3.15 for 25, \$11.90 per 100

Ibis—14 in.

Well-formed flowers of deep brilliant rose, silvery white at the margin.

40 cts. for 3, \$1.25 for 10, \$3.00 for 25, \$11.45 per 100

Keizerskroon—14 in.

One of the oldest but still popular Tulips. It grows about 14 inches tall and is of a blazing crimson-scarlet color, with a broad, rich, golden yellow edge. No other variety gives such brilliant and dazzling effect.

45 cts. for 3, \$1.35 for 10, \$3.25 for 25, \$12.35 per 100

Rising Sun—14 in.

Flowers very large, pure yellow. One of the best of this color.

40 cts. for 3, \$1.20 for 10, \$2.90 for 25, \$11.00 per 100

PARROT TULIPS

These are the freaks of the Tulip family. The very large buds usually twist and turn in a way to suggest the head and beak of a parrot. They open to broad, irregular, and fantastic flowers with slashed, fringed, lacinated, puckered, ruffled, and otherwise distorted blooms. Don't be discouraged with their early appearance. They are strikingly different from other Tulips in growth; are attractive and we recommend that by all means you grow a few "Parrots."

Fantasy—26 in.

An enormous, popular variety. Has shades of flesh-pink, shell-pink, scarlet and white, marbled and mottled with green on the outside. Petals are feathered and fringed fantastically and the stems are strong. Always attracts favorable attention.

65 cts. for 3, \$1.70 for 10, \$4.05 for 25, \$15.40 per 100

Sundew—25 in.

A very unusual Tulip which resembles a Darwin Tulip in form much more than it does a Parrot. Bright cardinal-red with a dark center. The petal edges are fringed, giving the blooms a very charming and unique appearance.

40 cts. for 3, \$1.25 for 10, \$3.00 for 25, \$11.45 per 100

Bulbs for Autumn Planting

INDOORS and OUT

AMARYLLIS

Delivery—November to March

For growing indoors

Not hardy

Breck's Giant American Hybrids. Illustrated in color on page 13. A wonderful strain of new Giant-flowered Amaryllis of free-flowering habit. The large flowers are composed of broad, well-rounded, overlapping petals and range in color from crimson to orange-scarlet, light rose and white, in the richest self-colorings and combinations of stripes and variegations. The large, strong bulbs we offer will throw erect, vigorous stems with from four to six blooms. We offer them in choicest mixed colors only.

85 cts. each, \$2.35 for 3, \$7.00 for 10

AMARYLLIS

The Hardy Amaryllis

Grow outdoors

Halli (Lycoris squamigera) (Hardy Amaryllis). The leaves appear quite early in the Spring and grow until July when they ripen and die to the ground. Then in August, the flower buds spring up and grow rapidly to a height of 2 or 3 feet. These buds soon open into clusters of from 8 to 12 large Lily-like flowers of a rosy lilac color. They are very handsome and always excite admiration.

\$1.25 each, \$3.30 for 3, \$10.00 for 10

ANEMONE • Windflower

For growing indoors

Not hardy

Splendid large, single and semi-double flowers of exceedingly brilliant hues. Excellent for cutting. They will grow remarkably well in a cool greenhouse but will not survive the warm temperatures of the home.

De Caen (Giant French Poppy-flowered Anemone). Large, single flowers in brilliant and varied colors.

75 cts. for 10, \$1.75 for 25, \$6.60 for 100

St. Brigid (Irish Anemone). Semi-double, fine for cutting, rich and brilliant colors. Mixed.

90 cts. for 10, \$2.15 for 25, \$8.15 for 100

CALLA LILIES

Delivery—November

For growing indoors

Not hardy

Callas really need no introduction to the general public but few know how easily they may be grown in the home. Planted in pots, in well enriched loam and kept well watered, they will make a rapid growth and will start to bloom in only a few weeks, and continue for months.

Black Calla (Arum pictum). A large, purple-black flower, shading to maroon as it ages. An interesting oddity and well worth trying in the Winter window-garden.

85 cts. each, \$2.35 for 3, \$7.00 for 10

Golden Calla (Elliottiana). Illustrated in color on page 12. Pure golden yellow. Foliage distinctly spotted white.

80 cts. each, \$2.25 for 3, \$6.75 for 10

Pink Calla (Rehmanni). A most unusual novelty. Flowers of soft rose-pink deepening to rose-purple toward the outer edge.

70 cts. each, \$1.95 for 3, \$6.25 for 10

White Calla (Aethiopica). Old fashioned well known White Calla or Lily-of-the-Nile.

70 cts. each, \$1.90 for 3, \$6.00 for 10

CHIONODOXA • Glory-of-the-Snow

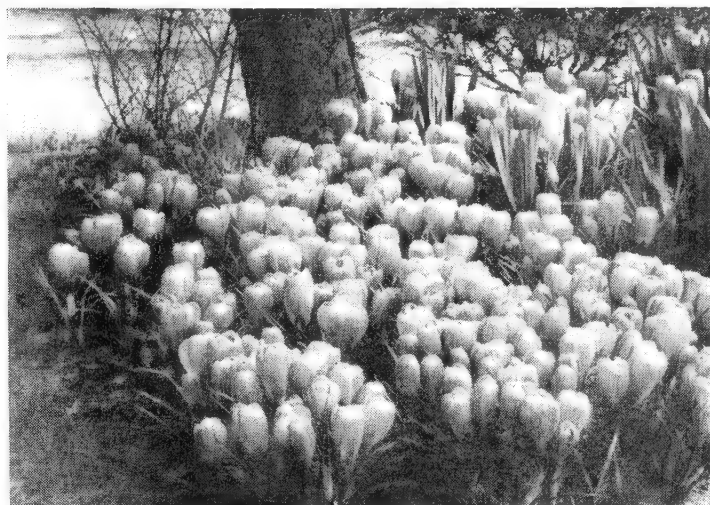

Hardy bulbs

Grow outdoors

Delightful blue-flowering bulbs for borders, banks and rock-gardens. They resemble the Scillas, but instead of drooping the inch-broad flowers are held erect on 5-inch stems. They are permanent and are among the finest early-blooming plants.

Luciliae. Sky-blue with a white center. Large clusters of flowers.

\$1.00 for 10, \$2.30 for 25, \$8.80 for 100

CROCUS, Spring-blooming

COLCHICUM • Meadow Saffron

Hardy bulbs

May be grown indoors or out

These hardy Autumn-flowering plants resemble the Crocuses. The flowers appear in Autumn, almost immediately after planting the bulbs and the leaves come up the following Spring. They may also be grown in pots or pans in prepared bulb fiber or pebbles.

Autumnale major. Large violet-purple flowers. Extremely free flowering.

35 cts. each, 90 cts. for 3, \$2.75 for 10

Bornmuelleri. Immense flowers of rich rose-lilac and white.

55 cts. each, \$1.45 for 3, \$4.50 for 10

CROCUS, Spring-Blooming

Hardy bulbs

For growing outdoors

One of the earliest flowers of Spring, the Crocus is also one of the most graceful and lovely. Planted in September and October in clumps and masses, they are perfectly hardy and may remain in the ground indefinitely. They should be planted in scattered drifts in the grass, under shrubs or in the rock garden.

Mixed, All Colors.

\$1.00 for 10, \$2.35 for 25, \$9.00 for 100

CROCUS, Autumn-Flowering

Hardy bulbs

May be grown indoors or out

Delightful Crocuses which come into bloom in September and October, if planted in August. They will continue to grow and bloom year after year. They also force very easily, and charming low table decorations can be made by planting them in shallow bowls in either our new Mica-Gro or bulb fiber.

Zonatus. Beautiful flowers of soft rose-lilac; center yellow with orange zone.

90 cts. for 10, \$2.10 for 25, \$7.95 for 100

ERYTHRONIUM • Dog's-tooth Violet

For growing outdoors in woodland settings

Mixed. Illustrated in color on page 13. Lovely woodland plants with prettily mottled foliage and graceful, Lily-like flowers. Flower stems 6 to 8 inches tall. Plant as soon as received, about 3 inches deep and allow them to remain undisturbed. They make a fine underplanting for shrubs and will multiply rapidly in moist soil, rich in leafmold.

65 cts. for 10, \$1.55 for 25, \$5.95 for 100

FREESIAS

*For growing indoors**Not hardy*

These colorful, fragrant blooms are really among the most attractive of Winter flowers. Large numbers are grown annually in greenhouse establishments, but they will also do very well if grown in the sunny windows of a cool room or sun parlor. It is impossible, however, to grow them in the warm temperature of the average living room.

Plant about six bulbs in a 6-inch pot. Use a light, moderately rich, fibrous soil. Water generously immediately after planting and then less freely until the plants are well started. Plenty of water and sunshine are required as they approach flowering.

Golden Daffodil. A very attractive shade of golden yellow.

55 cts. for 10, \$1.30 for 25, \$5.10 for 100

Maryon. Clear blue. One of the finest blues in existence.

\$1.55 for 10, \$3.70 for 25, \$14.00 for 100

Purity. A large, pure white Freesia. Popular florist variety. Jumbo Bulbs.

55 cts. for 10, \$1.30 for 25, \$5.10 for 100

Snowstorm. Gigantic blooms of the purest white. The finest Freesia in existence.

\$1.55 for 10, \$3.70 for 25, \$14.00 for 100

GLADIOLUS—"The Baby Type"

*For growing indoors**Not hardy*

Charming blooms with an exquisite, fragrant daintiness. The miniature "Glads" will not adapt themselves to growing outdoors during the Summer months, but they are excellent when grown indoors in a moderate temperature, to bloom during the late Winter months. They should be grown in the same manner as Freesias, and one should never attempt to raise them in the modern living room atmosphere.

Blushing Bride. White, carmine blotch. 65 cts. for 10, \$1.55 for 25, \$5.95 for 100

Peach Blossom. An exquisite shade of peach-pink.

65 cts. for 10, \$1.55 for 25, \$5.95 for 100

Spittfire. Brilliant salmon with claret blotch.

65 cts. for 10, \$1.55 for 25, \$5.95 for 100

Tristis Supreme. Creamy white with delightful Carnation-like fragrance.

\$1.55 for 10, \$3.70 for 25, \$14.00 for 100

New Hybrids Mixed. A well-blended mixture of new and interesting shades.

85 cts. for 10, \$2.00 for 25, \$7.70 for 100

HYACINTHS

*Hardy bulbs**For growing indoors or out*

Because of their beauty and fragrance, and because they bloom at the same time and combine so charmingly with Daffodils, Hyacinths should play a part in every Spring garden. They are also hard to beat as pot plants for house decoration during the Winter months.

For out-of-door growing, Hyacinths may be planted in any reasonably good garden soil, but a well-drained location is always desirable. Set the bulbs 5 to 6 inches apart, with their tops at least 4 inches below the surface. After the first hard freeze, cover the bed with a light application of some such material as Salt Marsh Hay.

Our English-grown stock consists of five colors only and the bulbs, although not as large as the Giant Hyacinths of former years will give results that will be more than satisfactory.

*For growing indoors***DUTCH IRIS***Not hardy*

This is an early blooming form of the Spanish Iris. They are less hardy than that type and are not recommended for outdoor planting. The blooms, however, are indescribably beautiful, and they are among the most desirable for growing indoors. They should be grown slowly in a temperature of not over 55 deg. F.

Blue Monarch (Poggenbeek). Fine dark blue variety; blooms early and is a great improvement on *Imperator*.

75 cts. for 10, \$1.75 for 25, \$6.60 for 100

White Excelsior. A splendid large-flowering pure white Iris with a pale yellow lip. Very early forcer.

80 cts. for 10, \$1.85 for 25, \$7.00 for 100

Yellow Queen. Standards and falls, clear golden-yellow. Early.

75 cts. for 10, \$1.75 for 25, \$6.60 for 100

Wedgwood. Beautiful Wedgwood blue. The finest forcing Iris and extremely early.

90 cts. for 10, \$2.15 for 25, \$8.15 for 100

SPANISH IRIS*For indoors or out**Hardy if protected*

These charming Iris may be grown indoors in the same manner as suggested for Dutch Iris or they may be planted out in reasonably good, well-drained soil to bloom in June of the following year. Set the bulbs about 4 inches deep and protect them with a heavy mulch after the first hard freeze. The graceful, colorful blooms are unique and enormously attractive whether grown indoors or out.

Golden Lion. Standards, lemon-yellow; falls, golden.

90 cts. for 10, \$2.15 for 25, \$8.15 for 100

King of the Whites. White, blotched orange.

70 cts. for 10, \$1.65 for 25, \$6.20 for 100

King of the Blues. Dark blue.

70 cts. for 10, \$1.65 for 25, \$6.20 for 100

*For growing indoors***LEUCOCORYNE***Not hardy*

Ixioides Odorata. (Glory of the Sun.) Dainty light blue blooms with a delightful heliotrope fragrance borne in 4 to 6 flowered umbels on wiry 18-inch stems. Especially fine and long lasting cut flowers. Grow them in just the same manner as suggested for *Freeseias*.

50 cts. for 3, \$1.50 for 10, \$3.60 for 25

MERTENSIA VIRGINICA (Virginia Bluebells)*For growing outdoors**Hardy plant*

Drooping bell-shaped blooms in handsome clusters. In the bud they are pink; in full bloom they become a pinkish lavender which gradually deepens to a lovely shade of bright blue. The plants grow to a height of about 18 inches and the foliage is a pleasing light green.

These charming native wild flowers are recommended for planting in woodland nooks, under trees and shrubs, or in shady portions of the perennial border. They bloom at the same time and combine beautifully with yellow *Daffodils*.

MUSCARI • Grape-Hyacinth*For growing outdoors**Hardy bulbs*

Very hardy bulbs with graceful stems, bearing clusters of bead-like flowers in late Spring. Excellent in grassy places or for the rockery, and for bordering Daffodils. They grow only a few inches high but will form a close mat in favorable locations, multiplying year after year.

Heavenly Blue. Light blue, strong-growing variety with large flower-trusses. The finest Grape-Hyacinth for mass planting.

85 cts. for 10, \$1.95 for 25, \$7.50 for 100

ORNITHOGALUM*For indoor growing**Not hardy*

This variety of Ornithogalum is particularly suited to growing in pots for early Spring bloom. They should be grown in a cool temperature and never forced in a warm house.

Arabicum (Star of Bethlehem). A large, fragrant cluster of pure white blossoms with striking black pistils. Excellent for pot-culture.

70 cts. for 10, \$1.65 for 25, \$6.20 for 100

ORNITHOGALUM*For growing outdoors**Hardy bulb*

Umbellatum. Tufted, grassy plants with light green leaves striped with white. The starry flowers, borne in clusters, are striped with green on the outside and marked with a showy black center. They bloom in the early Spring and will multiply rapidly if allowed to go to seed.

45 cts. for 10, \$1.00 for 25, \$3.75 for 100

OXALIS*For indoor growing**Not hardy*

Very attractive hanging pot plants and easily grown in the home. The leaves, similar to those of clover together with the interesting colorful flowers are reason enough for their long lasting popularity. Plant about five bulbs in a pot and grow in a cool room.

Bermuda Buttercup. Large, clear yellow.

Grand Duchess, Lavender.

Grand Duchess, Rosea. Deep pink.

50 cts. for 10, \$1.15 for 25, \$4.40 for 100

RANUNCULUS*For growing indoors**Not hardy*

These handsome and showy blooms are probably the most attractive of late winter and early Spring florist flowers. They are comparatively easy to grow in a cool greenhouse but not in the warmth of the ordinary living room temperature.

Tecolote Giants. A striking development. This strain produces flowers of enormous size on long, strong stalks far above the foliage. They are very attractive and come in many rare and entirely new shades.

80 cts. for 10, \$1.85 for 25, \$7.00 for 100

SCILLAS • Squills*For growing outdoors**Hardy bulbs*

These are among the hardiest Spring-flowering bulbs and increase to a very gratifying extent when naturalized in suitable places.

Campanulata White. A May-flowering variety growing 1 to 1½ feet tall. The long spike of drooping, pure white flowers somewhat resembles a Hyacinth. Effective with Darwin or Cottage Tulips.

95 cts. for 10, \$2.20 for 25, \$8.35 for 100

Campanulata, Blue. Tall, graceful spikes of deep blue flowers.

95 cts. for 10, \$2.20 for 25, \$8.35 for 100

Campanulata, Pink. A lovely rosy pink variety of the same habit.

95 cts. for 10, \$2.20 for 25, \$8.35 for 100

Nutans caerulea. The traditional Blue Bell of the English countryside and woodlands. Deep indigo-blue bells on spikes a foot or more high.

Lilies

LILIES are considered by many to be the most beautiful and ornamental of cultivated plants. Their stately habit and variously colored flowers, often very fragrant, make them almost indispensable for the hardy flower garden, as well as for growing in the greenhouse. Many of the native species may be effectively naturalized and practically all are valuable for use in the mixed perennial border. Most of them will grow very well in pots, and by using several varieties, a succession of bloom may be had over a long period.

It should be remembered that Lilies are primarily wild plants and they do not lend themselves to formal bedding schemes. They are at their best in the open garden when grown with a protective ground cover planting or when located in shade for at least a portion of the day. They will do well in mixed perennial plantings, but be sure that the bulbs are not crowded by the roots of other plants.

CANADENSE

A hardy Lily

One of our most popular native Lilies, growing to a height of from 2 to 5 feet and bearing, in late June and July, from three to ten pendulous blooms varying in color from bright reddish orange to yellow, spotted dark brown, and with reddish anthers. An excellent Lily for planting among shrubs.

CANADENSE RUBRUM

A hardy Lily

A variety of Canadense and similar in habit but bearing slightly larger flowers of bright orange-red spotted dark brown and tinged with deeper red on the outside.

CANDIDUM

A hardy Lily

Beautiful, delicately fragrant blooms of pure waxy white, borne during June and July on strong plants 3 to 5 feet in height. Madonna Lilies are of easy culture, growing in almost any soil and location, and are excellent for the hardy border where, in combination with other tall-growing flowers such as Blue Delphiniums, they give a striking and delightful effect. Dormant bulbs are only available through the Autumn months.

EASTER LILIES

We plan on handling the new American grown "Croft" strain of Easter Lilies. They force just as readily and in exactly the same way as the well-known "Giganteums." The flowers, however, are much larger, and a bulb of any given size will produce more blooms than will a similar bulb of the older strains. The Croft Lilies are the finest Easter Lilies yet produced, regardless of origin.

We will gladly quote prices after the crop has been harvested.

FORMOSANUM

A hardy Lily

A truly remarkable Lily, resembling the Regal Lily in habit. Has long, pure white, trumpet-shaped flowers, slightly reddish brown outside, fading to pure white at maturity. Very fragrant. Blooms from early September until frost. Grows to a height of about 5 to 6 feet.

HENRYI

A hardy Lily

A splendid Lily, the flowers of which resemble closely the Speciosum varieties in form, growing to a height of from 4 to 8 feet, and bearing, in August, from five to twenty flowers of bright orange-yellow, slightly spotted brown, with a green band at the base of each segment.

PARDALINUM GIGANTEUM

A hardy Lily

A gorgeous Lily with large blooms shading from orange through shades of brilliant red to rich crimson, heavily dotted with deep red spots. It is very easily established and grows almost anywhere. Under ideal conditions it may reach a height of 7 feet with a large number of showy flowers which measure about 4 inches across. Blooms in July.

REGALE

A hardy Lily

Growing to a height of from 3 to 6 feet, it bears, in July, from one to twelve immense, fragrant, trumpet-shaped flowers of pure white with a yellow flush at the base of the petals and pure yellow anthers. The outside of the flower is stained with deep purplish red, very easily grown.
